Customer Account Services

Central Hudson Bill Basics

Basic Service Charge	Demand Charge	Usage Charge
<ul style="list-style-type: none">● Fixed● Same Dollar amount for each month	<ul style="list-style-type: none">● Variable● \$ / kW● Certain non-residential customers only	<ul style="list-style-type: none">● Variable● \$ / kWh● Residential and most non-residential customers larger Industrial are not charged

Usage Charge includes:

- Central Hudson Charge (Delivery)
- Non Central Hudson Charges
 - Supply (Market Price, Market Price Adjust, Misc, PPA)
 - Government: NYS Assessment, Taxes, SBC/RPS

Net Metering Billing Basics

Residential and Non-Demand Commercial

- Usage Charges (per kWh) will net.
- Credits will be carried in kWh to the next billing cycle.
- Check will be issued to a residential customer on anniversary month of the effective date of Net metering or a customer **One Time Elected** month that coincides with the customer's meter reading schedule for Supply component of usage charges. Payment is based on the NYISO Real Time Price Monthly Average
- Time of Use (TOU) Residential is the same as residential except on and off peak net separately
- Non-Demand Customers do not have a reconciliation period. Generation will continue to roll to the next bill

Note: These types of bills will never be \$0 because there will always be basic service charge.

Net Metering Billing Basics

Demand Commercial

- Usage Charges (per kWh) will net.
- Demand Charge (per kW) will not net.
- Credits in kWh converted to \$ and used to offset bill.
- Additional excess will be converted back to kWh and carried to the next billing cycle.
- No check will ever be issued.

Note: A demand commercial bill CAN be \$0.

What's on the Bill

- Under the “What’s New” Section will be a line showing Current Gen/Usgr. & YTD Gen
- If a customer generates, the index shown on the bill will be the same index as previous bill. This is so no usage charges are calculated

Remote Net-Metering

- A customer that owns or operates a farm or non-residential photovoltaic electric generating equipment as defined in the Public Service Law is eligible for Remote Net- Metering.
- Customer will designate a “Host Account” (where the equipment is located) & “Satellite Accounts” (where net metering credits are to be applied). If there is excess net generation, the kWh are converted into dollars and are credited to the Host and Satellite accounts.
- Accounts must be held by the same customer and must be within the same load zone as determined by the NYISO.
